in the most basic terms planetary conjunction occurs when two or more planets occupy the same house but what happens when planets are conjunct in a house they define your life in a nutshell a conjunction can be benefic or malefic depending upon several factors such as the nature of the planets involved their relationship with each other and the house sign they are placed in the strength of the planet is also taken into account like whether the planet is combust retrograde or direct there can be as many as 5 or 6 planets in the same house but such is a rare occurrence these are in fact the most difficult horoscopes to interpret care must be taken in determining how the planets affect each other there could be a yoga or a planetary combination forming due to the conjunction but if a malefic planet is operational in the same house the yoga may not fructify for the native on the other hand when multiple weak or malefic planets get together in a house presence of a benefic could balance the situation nevertheless its power would be low due to malefic influence so the horoscope can only be considered average conjunction of multiple planets in one house indicates the focus area of your life the house where most of the planets are placed nevertheless there could be some misbalance in the personality of the native due to the strong pull of a single house the lord of house where conjunction of planets takes place is also under the spotlight if it is positioned well it casts a benefic influence upon the native it tends to make other planets strong too however if it is weakly posited or under malefic influence it may only deem negative results and may worsen the situation
