the first book to explore the sacred myths of santería includes more than 100 myths stories and histories about the odu and the orishas reassembles the oral fragments from the african diaspora into coherent stories demonstrates that the african peoples specifically the yoruba were deeply spiritual at the core of the diloggún the sacred divination system of santería are the sacred stories known as the patakís narratives whose themes are as powerful and relevant today as they were in the minds of the ancient yoruba who safeguarded them each patakí is connected to one or more of the 16 odu the principal creative forces of santería some recount the lives of orishas on earth others the lives of individuals in heaven and some tell of the odu themselves for even they once walked the earth as mortals the first book to explore these ancient african stories in english teachings of the santería gods recounts more than 100 of these sacred parables including many stories reassembled from the oral tradition of the african diaspora ranging from creation myths to what happens when a love potion works far too well these stories share the wisdom and spirituality of the yoruba people of ancient africa and form the living oral bible of one of the world s fastest growing faiths

this book treaty of the odu ifá synthesis third edition in english is a translation from the spanish of the third special edition which deals with important aspects of the odu such as ifa de sayings births emphasis signs ifa says prohibitions recommendations herbs jobs and eboses the novelty in this edition we have added enough illustrations of the important aspects that must stand out in each odu with the aim of facilitating the english speaking babalawos who are not very related to these afro cuban dialects used in ifá and osha may have a clearer idea of the different aspects that are discussed here to these people i suggest that to have a better understanding of these dialects to be helped by other complementary literatures such as yoruba vocabulary and lukumi and food and adimú for the santos both by marcelo madan which will be a very valuable help for the understanding of these terms and languages used regularly in the works and

eboses

world in an effort to help the adherent evolve while many books have been published about santeria the secrets of afro cuban divination is the first to provide complete information on how to cast the diloggún including opening reading and closing the oracle and how to give a comprehensive reading with a detailed discussion about why each prayer is offered and insight into the metaphysical core of the religion this book will bring those seeking the wisdom of the diloggún closer to the living orishas than they have ever been
